

1 **Amendment to the Claims**

2 **In the Claims:**

3 Please amend Claims 1-3, 8, and 10-13 as set forth below.

4
5 1. (Currently Amended) A method for reformatting a previously formatted portion of
6 document text comprising the steps of:

7 determining a sample of formats comprising a plurality of formats from a format set;

8 identifying the portion of text within the document to be reformatted; and

9 for each format included in the sample of formats, reformatting the portion of text with the
10 format and displaying the reformatted portion of text in a live preview window.

11 2. (Currently Amended) A computer readable medium having stored thereon computer
12 executable instructions for performing the method steps of claim 1.

13 3. (Currently Amended) The method of claim 1, further comprising the steps of determining
14 the format set based on user selection of a color set and a font set.

15 4. (Original) The method of claim 3, wherein the color set comprises a plurality of colors
16 defining a color scheme, the colors being pre-selected by a trained designer.

17 5. (Original) The method of claim 3, wherein the font set comprises a plurality of fonts
18 defining a font theme, each font having a font name and a font size, the fonts being pre-selected by a
19 trained designer.

20 6. (Original) The method of claim 1, wherein each format comprises a format font name, a
21 format font color and a format font size.

22 7. (Original) The method of claim 1, wherein the live preview window comprises a floating
23 window that hovers above the document.

24 8. (Currently Amended) The method of claim 1, further comprising the steps of receiving a
25 command for adding a custom format to the sample of formats;

26 in response to the command, adding the custom format to the sample of formats; and
27 reformatting the portion of text with the custom format and displaying the reformatted portion of text
28 in the live preview window.

29 9. (Original) The method of claim 8, wherein the custom format comprises a user-defined
30 format.

1 10. (Currently Amended) A computer readable medium having stored thereon computer
2 executable instructions for performing the ~~method~~ steps of claim 8.

3 11. (Currently Amended) The method of claim 1, wherein the step of identifying the portion
4 of text within the document to be reformatted comprises the step of identifying the portion of text
5 positioned immediately adjacent to a cursor.

6 12. (Currently Amended) The method of claim 1, wherein the step of identifying the portion
7 of text within the document to be reformatted comprises the step of identifying the portion of text that
8 has been highlighted by a user.

9 13. (Currently Amended) A system for reformatting a previously formatted portion of
10 document text comprising:

11 a display device for displaying the previously formatted portion of document text and a user
12 interface for selection of a selected color set and a selected font set;

13 a memory for storing a plurality of color sets and a plurality of font sets;

14 an input device for generating commands corresponding to selection of the selected color set
15 from the plurality of color sets and the selected font set from the plurality of font sets;

16 a processor in communication with the display device, the memory and the 10 input device
17 for receiving the commands and determining a format set based on the selected color set and the
18 selected font set; and

19 the processor being further operable for:

20 determining a sample of formats comprising a plurality of formats from the format set,

21 identifying the previously formatted portion of text within the document to be
22 reformatted, and

23 for each format included in the sample of formats, reformatting the previously
24 formatted portion of text with the format and displaying the reformatted portion of text in a live
25 preview window.

26 14. (Original) The system of claim 13, wherein each format comprises a font name, a font
27 color and a font size.

28 15. (Original) The system of 13, wherein the color set comprises a plurality of colors
29 defining a color scheme, the colors being pre-selected by a trained designer.

30 BEST AVAILABLE COPY

1 16. (Original) The system of claim 13, wherein the font set comprises a plurality of fonts
2 defining a font theme, each font having a font name and a font size, the fonts being pre-selected by a
3 trained designer.

4 17. (Original) The system of claim 13, wherein the live preview window comprises a
5 floating window that hovers above the document.

6 18. (Original) The system of claim 13, wherein the input device generates a further
7 command for adding a custom format to the sample of formats; and

8 wherein the processor is further operable for:

9 in response to the command, adding the custom format to the sample of formats, and
10 reformatting the portion of text with the custom format and displaying the reformatted
11 portion of text in the live preview window.

12 19. (Original) The system of claim 18, wherein the custom format comprises a user defined
13 format.

14 20. (Original) The system of claim 13, wherein identifying the portion of text within the
15 document to be reformatted comprises identifying the portion of text positioned immediately adjacent
16 to a cursor.

17 21. (Original) The system of claim 13, wherein identifying the portion of text within the
18 document to be reformatted comprises identifying the portion of text that has been highlighted by a user.

19 22. (Original) A user interface for reformatting a previously formatted portion of document
20 text comprising:

21 a first control for selection of a color set;

22 a second control for selection of a font set; and

23 a live preview window for displaying a plurality of live preview text samples formatted
24 according to a format set defined by the selected color set and the selected font set, the format set
25 comprising a plurality of formats, each of the live preview text samples being displayed with one of
26 the formats.

27 23. (Original) The user interface of claim 22, further comprising a third control for adding
28 a custom format to the sample of formats; and

29 wherein the live preview window further displays one of the live preview text sample with
30 the custom format.
